

A Letter From Washington

The Food Administrator Writes Us:

"The use of baking powder breads made of corn and other coarse flours instead of patent wheat flour is recommended by the Conservation Division of the Food Administration. The wheat needed for export is thus conserved, and at the same time healthful food for our own people is provided. The circulation of recipes providing for these uses would be of assistance in carrying out our plans."

The following recipes for Corn Bread and Rye Rolls save wheat flour and make attractive and wholesome food for every day when made with

DR. PRICE'S CREAM BAKING POWDER

CORN BREAD

1 1/2 cups corn meal
1/2 cup flour
2 level teaspoons Dr. Price's Baking Powder
1 tablespoon sugar
1 teaspoon salt
1 1/2 cups milk

A SAFE TEST.

For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Lexington People.

Mrs. A. Ashford, Fifth St., Lexington, says: "From my experience with Doan's Kidney Pills I can recommend them to others. I had rheumatic pains in my body and arms. My kidneys acted too frequently and I began to wear out physically. I got Doan's Kidney Pills at Crenshaw & Young's Drug Store and found great relief. I shall keep Doan's on hand hereafter in case of need."

SLAV NAVY BARS WAY OF GERMANS

Russian War Vessels Successfully Resist Advance of the Huns Into Finland Gulf.

TWO TEUTON BOATS GO DOWN

But Land Forces Are Driving Hard for Possession of Oesel—Raiding in Flanders.

Washington, Oct. 17.—Apparently there has been no cessation in the rapid program of the Germans to seize in its entirety the Russian island of Oesel at the head of the Gulf of Finland. But although their troops now have taken the greater portion of the island, the aid they had expected from their fleet in putting down Russian opposition in adjacent waters is meeting with considerable resistance from the Russian warships.

The German land forces now are driving hard against the Svorb Peninsula on the southwestern portion of the island of Oesel with the object of capturing the batteries of Serel, which dominate the eastern entrance to the Gulf of Riga. According to the Berlin war office, the Russians in this region are isolated, but are desperately resisting.

Flanders Still Wet.

The troops of the Entente Allies are still keeping to their trenches in Flanders, probably awaiting a betterment of soil conditions, which the recent rains and flooded streams rendered almost impractical for attacks.

Day and night the British and French guns are showering the German positions with the usual mass of steel which is thrown upon them prior to an attack, while the Germans at various points, especially in the important salient of the Ypres-Staden railway, are replying vigorously.

No Ground Lost in Exchange.

To the south along the Aisne front, the Germans after a lively bombardment have again attacked the French and succeeded in penetrating their trenchments. As has been customary, however, the French immediately counter attacked and regained the lost ground.

There is every indication another big battle will begin along the Isonzo front in the Austro-Italian zone soon. From the head of the Adriatic northward to the Bainsizza Plateau intense artillery duels are in progress along the front lines and against the Austrian lines of communication in the rear. Considerable activity also is in progress on the Carso.

Germans Occupy Slav Island.

Petrograd, Oct. 16.—German forces which landed on the Russian island of Oesel, at the head of the Gulf of Riga, on Friday, occupied Arensburg, the capital of the island, on Saturday. It was officially announced today by the Russian war office. Arensburg is on the southern shore of Oesel island.

The northern group of German warships, the statement adds, dispatched a torpedo boat squadron between the islands of Oesel and Dago which pressed back the Russian patrols. Russian naval forces reinforced the patrol and accepted battle, whereupon the German ships retired.

Fighting Continues.

Fighting for Oesel island, the war office announced, continued all day yesterday.

A third group of German warships, consisting of cruisers and torpedo boats, approached the southwest coast of Oesel island and bombarded important parts of the coast. German submarines were observed at various times and places in the Baltic.

German naval aerial forces are supporting the land forces of the northern and southern sections of Oesel island.

Further movements of the German naval forces into the Gulf of Riga, the statement says, are covered by the long range artillery of the Russians from Oesel island.

British Still Raiding.

In Flanders the British troops have carried out several successful raids, in which severe casualties were inflicted on the Germans and prisoners and machine guns were taken.

After the lapse of two days, the heavy artillery duels have been resumed between the French and Germans on the Verdun front, especially to the north of the famous Hill 344. Also on the Aisne front there is considerable artillery activity.
